Specific Provisions Journals

1. Subscribed Journals

The journals listed in Section 6 (the "Subscribed Journal(s)" or the "Subscription") contain the volumes of previous years going back to 1997 if available (the "Complimentary Volumes"). Content paid via subscription during past years will remain accessible, and is not "complimentary". Content subscribed by Licensee partners will remain accessible going forward even at expiration or cancellation of contract as set forth in the archival clause.

2. Print and Electronic Journals

2.1 Licensee may substitute a print subscription with an e-only-subscription subject to appropriate adjustment of the License Fee, by giving Springer notice in writing on or before September 1st with effect for the following Subscription Year. The title Zentralblatt Math is not part of this agreement, and may be canceled without penalty to the terms of this agreement.

2.2 In the event that any Subscribed Journal is no longer included in SpringerLink, Licensee may substitute any such Subscribed Journal with another Journal of equivalent value (current year list price) at any time upon written notice to Springer. In case Licensee does not choose another Journal, the License Fee will be reasonably decreased.

2.3 In case Licensee orders the print versions of its Subscribed Journals from Springer or from an agent in addition to its e-only-Subscription under this License Agreement, Licensee is entitled to a discount of 75% of the list price of the print version, excluding postage and handling fee ("Deep Discounted Print" or "DDP"). The order shall include the indication that Licensee orders the print versions of the Subscribed Journals under the DDP, otherwise Licensee is not entitled to any refund from Springer. This Section does not apply to Non-Subscribed Journals or Complimentary Journals.

3. Transfer, Take-Over and New Journals

3.1 If the publishing rights to a Subscribed Journal are transferred to another publisher, Springer will use its best efforts to provide Licensee or - in case of a consortium - those Participating Libraries with a respective Subscription with continuous access to those issues of the Subscribed Journal published during the Term either (a) online on SpringerLink, (b) online on the new publisher's website, or (c) offline by providing the same on a digital storage medium. If Springer is unable to do any of the foregoing, Springer will offer those Participating Libraries access to another journal of equivalent value.

3.2 In the event that during the Subscription Year, Springer acquires a journal from a third party publisher (the "Take-Over Journal"), Participating Libraries may obtain access and rights to the Take-Over Journal under the following terms:

- a) If one or more Participating Libraries subscribed to the Take-Over Journal during the previous Subscription Year, and (i) the total number of subscriptions of the Participating Libraries to the Take-Over Journal is maintained upon transfer to Springer, and (ii) the total number of subscriptions of the Participating Libraries to the Take-Over Journal meets or exceeds the Multiplier as defined in subparagraph (c), Springer will provide access and rights to the Take-Over Journal to all Participating Libraries at no additional cost.

- b) If the provisions of sub-paragraph (a) are not satisfied, Licensee may add the Take-Over Journal to the title list and the License Fee for the Subscribed Journals shall be increased by the product of the Multiplier and the list price of that Take-Over Journal. If Licensee declines this option, Springer will grant access and rights to the Take-Over Journal only to those Participating Libraries that hold a subscription to that Take-Over Journal.
- c) The "Multiplier" is the average number of subscriptions per subscribed journal held by all Participating Libraries within a consortium. For example, if there are 7 Subscribed Journals, and a total of 13 subscriptions held by the Participating Libraries, the Multiplier would be 13 divided by 7, i.e. 1.86. The multiplier is based on the Subscribed Journals held by the Participating Libraries in the year prior to the current Subscription Year.

3.3 Electronic access to new, start-up journals initiated by Springer (the "Start-Up Journals") will be included at no additional cost during the first two years of their publication but not exceeding the Term of this License Agreement. Licensee has no rights to continuous access with regard to the Start-Up Journals

4. Term and Duration of Access

- 4.1 The term shall begin on **January 1st, 2012** and shall end on **December 31st 2014** (the "Subscription Year" or "Term").
- 4.2 After expiration of the Term and subject to Licensee's and Participating Libraries' compliance with it, Licensee and each Participating Library, shall be entitled to continuous access to all Subscribed Journals. From **January 1st 2017**, Licensee shall pay an annual hosting fee in the amount of **US \$625.00** for access to the Subscribed Journals through SpringerLink, which will be waived during those years that Licensee and/or any Participating Library subscribes to or acquires any additional Content hosted on SpringerLink. Licensee and Participating Libraries shall be entitled to access the Non-Subscribed Journals and the Complimentary Volumes only during the Term.

5. Termination of Subscription

- 5.1 A Participating Library may opt out of this License Agreement without penalty due to unexpected financial difficulties by giving Springer notice in writing including the reasons for opting-out, by **October 31st** with effect for **January 1st** of the following year. The share of the terminating Participating Library will be deducted from the base value. In case the Participating Library does not terminate on time, it will not receive a refund of its share for the following Subscription Year. If the share of the base value (the minimum print value + electronic-fee, or the electronic-only fee) of the Participating Library(ies) represent more than 10% of the annual License Fee, Springer has the right to renegotiate the terms of this Agreement.
- 5.2 In the event, a Participating Library cancels its Subscription, Springer may restore the Subscription provided that the Participating Library restores its Subscription in the same amount of its License Fee prior to its cancellation.

- 6.3 In the event of termination or expiration of the License Agreement, Licensee shall discontinue accessing the respective Content via Springer's Websites and the license grant shall terminate with regard to the Content, unless otherwise stated in the License Agreement.
