APPENDIX B (a) – LICENSED ELECTRONIC JOURNALS - CORE COLLECTIONS OF SUBSCRIBED TITLES

Licensees: UT System and HAM

The Core Collection is defined herein as the complete collection of Wiley journals to which the Licensee subscribes and will pay full rate institutional online only subscription fees to obtain online access.

Archival Access: During the term of this License, Wiley will provide the Licensee with access to current electronic files of the journals in the Core Collection and retrospective content, generally back to 1997, depending on the start date of online publishing by Wiley, as well as tables of content, abstracts, full text and illustrations and any additional electronic journal content not included in the print versions of the journals, but not materials included in Backfiles.

Perpetual Access: Upon termination of this License, Wiley will provide the Licensee with perpetual access to current electronic files of the journals in the Core Collection and retrospective content, generally back to 1997, depending on the start date of online publishing by Wiley, as well as tables of content, abstracts, full text and illustrations and any additional electronic journal content not included in the print versions of the journals, but not materials included in Backfiles where Wiley has the rights to deliver this. Wiley, in its discretion, will either continue online access to the same material on Wiley's server or provide an archival copy in the electronic medium selected by Wiley, at a reasonable cost-based fee agreed to by all parties. Wiley has designated Portico as a post-cancellation access provider of licensed material. If the licensed material is no longer available via Wiley Online Library, the Licensee may access the material on Portico's server as long as Wiley continues to designate Portico as a post-cancellation access provider; the licensed material is available on Portico; Wiley maintains copyright over the licensed material and provided that Portico's procedures for providing access are followed.

By providing such access Wiley grants to the Licensee a nonexclusive, royalty-free, license to use such material in accordance with the restrictions on use specified in Paragraph C of the Agreement, which restrictions shall survive any termination of the Agreement.

Pricing:

(b) **Subsequent years**

- Core Collection Fee = 100% of the previous year's Core Collection fee plus a price increase based on the average journal price increase but not to exceed the Price Increase Cap specified below, plus any adjustments for new, canceled or deleted Electronic Journal titles.
- Price Increase Cap: 4%
If the average aggregate Wiley journal price increase for a calendar year is less than the Price Increase Cap, the lower percentage will be applied. The following titles are not available via this Agreement: *Econometrica*, *Quantitative Economics*, *Theoretical Economics* and *The Journal of the European Economic Association*. However, they may be ordered via Wiley's Journals Customer Service department at cs-journals@wiley.com.

Electronic Journal Subscription Maintenance and Swapping: The Licensee may swap subscribed online journals in the Core Collection without penalty provided that such changes do not exceed 5% of the value of the total Core Collection for any calendar year. These changes will be reflected in amendments to this Appendix. Swapping will be accepted at the title level or for duplicate subscriptions. Swapping will only be accepted on a calendar year basis and Wiley must be notified of any changes in writing no later than the preceding December 1st.

In addition, the Licensees may cancel outright subscribed Electronic Journals equal to 1% of the total Core Collection annual value of the License. Cancellations will only be accepted on a calendar year basis and Wiley must be notified by the Licensees by December 1st of any such subsequent year cancellations. If a Licensee elects to exercise this option, that Institution will no longer have electronic access to that Journal(s).

Wiley may, from time to time, cease publication of individual journals in which case the journal(s) will be removed from the Licensee's Core Collection, and the fees associated with the journal(s) will no longer be factored into the Core Collection Fee.

Except as provided above, the Licensee must maintain all online subscriptions in the Core Collection as set forth in the attached list (Appendix B(a)1).

New Titles: New Titles can be added under the following terms and conditions:

- (a) The Licensee may add new journals to its Core Collection at the full rate institutional online only subscription price.
- (b) Subscriptions to titles transferred into Wiley from another publisher will be added to the Licensee's Core Collection in the first year of transfer if the Licensee has a subscription at the time the title is transferred. The title will be added to the Core Collection of each Member Institution at the current year institutional online only price multiplied by the number of

subscriptions held in the previous year. Subscriptions to titles transferred out of Wiley will be deleted from the Licensee's Core Collection in the year of transfer.

- (c) The Licensee may add previously canceled titles at the current full rate institutional online only subscription price to its Core Collection.
- (d) Wiley reserves the right to exclude titles from inclusion in the Standard or Custom Collections, however these titles may be added to the Licensee's Core Collection.

Print Subscription Pricing:

The Licensee can purchase print subscriptions to Licensed Electronic Journals which the Licensee subscribes to via a Core Collection at a deeply discounted rate of 15% of the institutional print price for 2014. This does not apply to:

- (a) Titles new to Wiley Online Library unless subscribed to in the Licensee's Core, Standard, or Custom Collection.
- (b) Titles not subscribed to by the Licensee, unless added to the Licensee's Core, Standard, or Custom Collection.
- (c) Titles not available via Wiley Online Library.
- (d) Titles published in online-only format by Wiley. Print subscriptions available through any Print on Demand option are not eligible for a deeply discounted rate.

American Geophysical Union titles now published by Wiley are available at the following deeply discount rate which differs from other Wiley journals: 75% of list price.

Print subscriptions, other than subscriptions for titles available from Wiley in online-only format, should be ordered directly via the Wiley Customer Services department, or through an agent.

APPENDIX B (b) – ACCESS TO UNSUBSCRIBED JOURNALS VIA STANDARD COLLECTIONS

Standard Collections are defined herein as predetermined collections of the online editions of Wiley journals. The available Standard Collections are:

- Full Collection
- Scientific, Technical and Medical Collection
- Medical and Nursing Collection
- Social Sciences and Humanities Collection

The complete list of titles for Standard Collections is included in Appendix B (b) 1. The Licensee will obtain online access to unsubscribed Wiley journals (journals not included in the Licensee’s Core Collection) by licensing a Standard Collection.

Archival Access: During the term of this License, Wiley will provide the Licensee with access to current electronic files of the unsubscribed journals in the Standard Collection and retrospective content, generally back to 1997, depending on the start date of online publishing by Wiley, as well as tables of content, abstracts, full text and illustrations and any additional electronic journal content not included in the print versions of the journals, but not materials included in Backfiles.

Perpetual Access: Upon termination of this License, Wiley will provide the Licensee with perpetual access to the unsubscribed titles in the Standard Collection for the years that the Licensee has paid for access to the unsubscribed titles in the Standard Collection where Wiley has the rights to deliver this. Wiley, in its discretion, will either continue online access to the same material on Wiley's server or provide an archival copy in the electronic medium selected by Wiley, at a reasonable cost-based fee agreed to by all parties. Wiley has designated Portico as a post-cancellation access provider of licensed material. If the licensed material is no longer available via Wiley Online Library, the Licensee may access the material on Portico's server as long as Wiley continues to designate Portico as a post-cancellation access provider; the licensed material is available on Portico; Wiley maintains copyright over the licensed material and provided that Portico's procedures for providing access are followed.

By providing such access Wiley grants to the Licensee a nonexclusive, royalty-free, license to use such material in accordance with the restrictions on use specified in Paragraph C of the Agreement, which restrictions shall survive any termination of the Agreement.

Standard Collection Fee: Each member will pay a Collection Fee to access the Standard Collection in addition to their Core Collection Fee.

Pricing:

(a) Year 2 of 2:

- Standard Collection pricing for each Member Institution is documented below.
- Licensee’s FTE count: 172,419
- Total Standard Collection Fee: \$221,341.70
- All Institutions are renewing the 2010 Full Collection in 2013, except for the University of Texas at San Antonio who is subscribing the 2011 Full Collection and the University of Texas at Dallas who is subscribing to the 2013 Full Collection.

(b) **Subsequent years**

- Standard Collection Fee = 100% of the previous year's Standard Collection fee plus a price increase based on the average journal price increase but not to exceed the Price Increase Cap specified below, plus any adjustments for new, canceled or deleted Electronic Journal titles.
- Price Increase Cap: 4%
If the average aggregate Wiley journal price increase for a calendar year is less than the Price Increase Cap, the lower percentage will be applied.

Adding and Deleting Titles from a Standard Collection

Each year after the first year of the License, Wiley may offer a package of new titles which the Licensee may opt to add to the licensed Standard Collection(s). The price will be calculated at the same percentage of the full rate institutional online only subscription fee initially used to calculate the Standard Collection Fee.

Wiley may, from time to time, cease publication of individual journals in which case the journal(s) will be removed from the Licensee's Standard Collection, and the fees associated with the journal(s) will no longer be factored into the Standard Collection Fee.
