

Since Nov 2010, Byung-dong has been employed by Conning & Company ([www.conning.com](http://www.conning.com)) in the RCMS (Risk & Capital Management Solutions) Group. He is involved in estimating and validating GEMS (General Economic and Market Simulator) models, with emphasis on MBS and credit risk modeling. GEMS is a scenario generator that creates econometric, continuous time models for key macroeconomic variables and for the financial markets of countries. Prior to joining Conning, he worked for DFA Capital Management, which was acquired by Conning in Nov 2011.
